Famolare Shoes

www.famolare.com

Walking is the healthiest natural exercise anyone can do, but walking on hard pavement requires shoes that are specifically designed. That's one of the great benefits of Famolare's patented 4-wave design. It makes walking in the city as natural and enjoyable as walking in the pine forest. Anatomically shaped for perfect fit and comfort, the resilient sole absorbs shocks to heel and arch, rolling the foot forward in a graceful, extended stride. High quality leathers are elegantly crafted into durable shoes.

Shoe Chart

This chart relates to the size of your foot not the size of the shoe. For a close to accurate measurement we suggest that you trace your foot from toe to heel with a pencil and paper then measure and compare to the chart to determine your size. The width is determined by the cutting of the leather, not the sole. If you have questions please call our toll free number.
